Commissioner for Patents

The reply brief filed 04/05/2008 has been entered and considered. The application has been forwarded to the Board of Patent Appeals and Interferences for decision on the appeal.

Applicant requested reconsideration of the information disclosure statement (IDS) filed 10/09/2007. Applicant submitted that the Japanese Office action dated August 2, 2007 and filed 10/09/2007 provided an explanation of relevance of these publications. Upon further review, the document "System security and operation management" will be considered. However, regarding the document "Integration management tool Patrol", other than being cited in the List of Cited Documents in the Japanese Office action, there is no explanation of relevance of the document in the Japanese Office action. Therefore, the document fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.
